SKILLS & TECHNOLOGIES

- **Languages/Frameworks:** Java, C++, React, JavaScript, HTML, CSS, ReactNative, Python, SQL
- **Tools/Topics:** Web Development, Agile Scrum, Jira, Mobile Development, Confluence, Blender, UX Design, Canva

PROJECTS

Project A.M.A.N. (Python, Beautiful Soup API, IMDBPy API)

November 2021 - December 2021

- Built a graph of movie actors and relationships with co-stars, allowing to display degrees of separation
- Developed the Automated Movie Actor Nexus utilizing web scraping, IMDBPy, and file I/O, with the purpose of completing comparative analysis of Dykstra's and BFS algorithms

Gator Atlas (FERN Stack, Google Maps and UF API's)

February 2022 - May 2022

- Designed Gator Atlas to be a web app for helping UF students acquaint themselves with classroom locations by providing routes and suggested departure times to optimize their schedules while adjusting to new life as a student
- Led team communication, development, design, scheduling, presentations, and documentation as project manager allowing for deliverables to be on time and provide complete client satisfaction

WORK EXPERIENCE

Stratos Energy Services / Dublin, Ireland

June 2024 - August 2024

Full Stack Software Engineer Intern and Intern Team Lead

- Designed and developed energy management platform website to track energy usage at client facilities and generate dashboard reports that optimize the energy audit service timeline, adding another revenue stream to the company
- Led planning/review meetings and daily stand ups, while acting as the principle communication between the intern team, superiors, and clients

Dycom Industries / Palm Beach Gardens, FL

June 2023 - August 2023

IT Project Management Intern

- Optimized and improved quality of project management workflow by conducting user research, scripting data reports, and creating dashboards to find new agile quality metrics for the company's project management office to track and utilize
- Curated training program (video and written) for company's project management office conversion to using Confluence for organizing project files/reports and Jira Advanced Roadmaps for IT project management

Gehring Group / Palm Beach Gardens, FL

May 2021 - June 2021

Business Analyst Intern

- Served as team lead for client communication projects to onboard over 100 new clients to a new product
- Conducted interviews with members of each department which gave me insight into company workings, culture, and its employees at a personal level
- Analyzed competitors' offerings to determine the most cost efficient way to gain new market share which allowed the company to expand their services into a new area of the insurance industry

Bentek / Palm Beach Gardens, FL

July 2021 - August 2021

Client Services Specialist Intern

- Answered the technical support phones, helping 200+ clients with user issues as part of the Client Services Specialist team

LEADERSHIP AND INVOLVEMENT

Theta Tau Professional Engineering Fraternity

August 2022 - December 2024

Community Involvement Chair, Housing Fundraising Assistant, DEI Committee, and Web Development Committee

- Curated fundraisers internally & externally for the fraternity of 90+ members to raise over \$1500+ for our housing fund per semester
- Orchestrated roadside cleanups and other community outreach events, like Habitat For Humanity builds, to keep our community clean and to impact the livelihoods of our neighbors here in Gainesville
- Collaborated in complete redesign and rebuild of fraternity website to enhance user experience for members, potential new members, and alumni
- Redesigned and rebuilt the fraternity website as part of the web development committee
